

CABRERA AFTER CONSPIRATORS

President Causes Arrest of Hundred and Sixty Citizens of Guatemala.

ALL THROWN INTO PRISON.

Entire Diplomatic Corps, With Exception of the American Charge, Entered a Protest.

Mexico City, July 1.—Word reached Mexico City tonight that President Cabrera of Guatemala had caused the arrest of 160 citizens of that republic on the charge of alleged complicity in the recent attempt to assassinate him. All were thrown into prison and later herded into squads of 20 and tried in groups. Two bands have been tried and many of the accused sentenced to death. Among the men imprisoned are some of the wealthiest and prominent men in the country. The statement is made that these men have long been on Cabrera's blacklist, and the charges against them were trumped up for political reasons. The report has created excitement among Central American residents in this city, and at a mass meeting to be held Sunday the matter will be discussed.

When the news of the wholesale arrests became generally known the diplomatic corps with the exception of Philip M. Brown, the United States charge d'affaires, protested. No attempt was made to these protests by President Cabrera.

The British minister was thereupon charged with drawing up a note detailing the incidents of the trial which was characterized as a farce. This note is to be sent to the powers. The dispatch states that absolute chaos reigns in Guatemala. Farm hands are being pressed for military service and crops are rotting in the fields. The rich are threatened with ruin unless they contribute to the war fund. Troops are being hurriedly rushed to the Mexican frontier and the Honduras borders and San Salvador. Special trains of artillery are being sent out tonight to the frontier. The legations are being besieged by relatives and friends of the imprisoned men who fear that they will be unceremoniously put to death.

NO DISCRIMINATION.

Government Sees None Against Japs In San Francisco.

Washington, July 1.—The fact that there is no apparent discrimination as a race against the Japanese who made application in San Francisco to establish intelligence offices and who were given this privilege has been received as evident satisfaction by the officials of the embassy here and they say that this being the case there is nothing for them to do, nor have they any intention to make a dispatch that they received at the embassy from the Japanese consular representative in San Francisco which, after saying that the application for the establishment of such intelligent offices had been returned, conveyed the information that they would not be entertained by the police commissioners and that such establishments should be conducted by American citizens only. This in the opinion of the officials here seems to put an end to any controversy over the question. Japan cannot have any complaint so long as there is no discrimination against her citizens. It was said at the embassy today that no communication on the subject had been received from the home government, which required any diplomatic representations to the state department.

Between the regulars and volunteers will go into camp, and the strictest discipline will be maintained, as if in time of actual hostilities. Attacks on both the forts will be made both day and night and by land and sea, during which every variety of tests of efficiency will be made. The present week will be devoted mostly to the work of encampment and preparations.

BOYLAN MURDER CASE.

Father Arrested on Suspicion and Then Released.

New York, July 1.—A sensational turn was given today to the case of Viola Boylan, the 15-year-old girl who was found maltreated and murdered in the cellar of her parents' home, when the girl's father, Thomas Boylan, was arrested. After a searching investigation by the police, it was found that Boylan's apartments had been taken into custody and at first charged with being a suspicious person. He was questioned closely about the disappearance of the child. Boylan is 60 years old and a cripple. The arrest was unsuspected, as the police had been searching for some unknown Italian, who was said by Viola's playmates to have intercourse with the girl upon the street and to have taken her into a wine cellar. After questioning Boylan the police changed the charge against him to homicide.

Boylan was released from custody tonight, there not being sufficient evidence against him to warrant his detention. His wife gave evidence in his favor.

ALL WELL ON ISTHMS.

Washington, July 1.—What would appear to be conclusive contradiction of the reports recently published in this country, to the effect that the army officers engaged in the work of constructing the Panama canal are endeavoring to be relieved of that task, is contained in the cablegram received at the war department today from Panama: "Everything going well and harmoniously. Report of dissatisfaction desire to withdraw absolutely false."

Dante, who is little more than a boy, informed the officer that his father came to a tragic end for killing a man and that he expected to go the same way.
